DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: The art of record does not suggest the respective claim combinations together and nor would the respective claim combinations be obvious with:

Re claim 1, the further limitation of, "a method for handling data transmissions, said method comprising: generating a codeword by compressing one or more incoming characters; storing said codeword and said one or more incoming characters in a buffer; determining a cost difference between transmitting all codewords previously stored in said buffer and transmitting all characters previously stored in said buffer; in response to said determined cost difference being less than a low limit value, transmitting all characters previously stored in said buffer; in response to said determined cost difference being greater than a high limit value, transmitting all codewords previously stored in said buffer; and in response to said determined cost difference being inclusively between said low limit value and said high limit value, deferring data transmission from said buffer". Claims 2-10 depend on claim 1 above.

Re claim 11, the further limitation of, "an apparatus for handling data transmissions, said apparatus comprising: means for generating a codeword by compressing one or more incoming characters; means for storing said codeword and said one or more incoming characters in a buffer; means for determining a cost difference between transmitting all codewords previously stored in said buffer and

transmitting all characters previously stored in said buffer; means for transmitting all characters previously stored in said buffer, in response to said determined cost difference being less than a low limit value; means for transmitting all codewords previously stored in said buffer, in response to said determined cost difference being greater than a high limit value; and means for deferring data transmission from said buffer, in response to said determined cost difference being inclusively between said low limit value and said high limit value". Claims 12-20 depend on claim 11 above.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
